## Description

The most powerful vehicle. The SEABOB F5 SR is the most powerful vehicle in the SEABOB F5 range. His performances are quite unique. The SEABOB F5 SR's E-Jet Power system delivers an impressive 745 Newton thrust. This engine has 7 speeds. The lower speeds allow you to walk quietly underwater. On the other hand, the higher speeds will make you feel the surprising propulsion power of the F5 SR underwater. In addition to the power of its engine, the SEABOB F5 SR also offers a whole series of special equipment. It is standard equipped with the SEABOB camera system, including two on-board cameras, as well as an integrated storage system with a Wi-Fi transmission module. In addition, the SEABOB F5 SR is standard equipped with the Chrome premium pack. The SEABOB F5 SR can, however, benefit from any finish, to choose from our entire range of colors, at no additional cost. The SEABOB F5 SR also has two ailerons located at the rear, for more stability. These fins further improve its underwater maneuverability, while highlighting its sporting character.
